Dear Speaker Boehner and Minority Leader Pelosi,

Representing the country's largest, oldest and most respected small business associations, which have spent more than a decade working to improve access to and affordability of private health insurance, the Small Business Coalition for Affordable Healthcare (the Coalition) is writing in support of H.R. 30, *the Save American Workers Act of 2015*. This legislation would repeal *the Patient Protection and Affordable Care Act's* (ACA) 30-hour per week full-time employee definition and replace it with a 40-hour per week full-time employee definition.

Beginning in 2015, the ACA requires businesses with 100 or more full-time equivalent (FTE) employees to offer affordable health insurance to full-time employees or potentially pay significant penalties. Businesses with 50 or more FTEs must offer affordable health insurance to full-time employees and their dependents or potentially pay penalties beginning in 2016. The ACA defines a full-time employee as an employee who averages 30-hours of service per week, or 130-hours of service per month. The ACA's definition of full-time is counter to the traditional 40-hours of service threshold that most American businesses use to define full-time for benefits and other purposes. Implementing this new definition will require businesses to change both their policies and their practices.

Without H.R. 30, employers will face higher employer mandate penalty taxes, and employees will continue to see reduced hours and take home pay.

The Coalition urges all Members of the U.S. House of Representatives to support H.R. 30.

Sincerely,
